The Eminent Kidney and Bladder Specialist.

At the discovery of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root, the new discovery, is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At drug stores in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address: Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

The Story About Binder Twine

All twine is good, so has been frequently remarked by some of the twine dealers in our town, just like the story about whiskey, it is all good but some is better than others; in either case human nature teaches us that the best is always preferred. While we do not deal in whiskey we want to frankly state and guarantee that we do sell the best twine the market produces for less money per pound than any other twine.

A recent test made for which we have good proof, we find that our twine at 12 1-2 cents is as cheap to the farmer as some competitive twine, we tested at 10-7-8 cts.

Now for further proof to the farmers, we kindly invite six impartial farmers to delegate themselves as a committee, to ascertain a comparison of our twine over competitors, as to length, strength and quality.

Anyone having had the experience of using bad twine well knows that there is always three ways when a machine fails to bind, which is Time, Twine and Grain. No one can afford to use it.

We invite everybody needing twine to give us a call, and let us prove our claim, we are

Does the Baby Thrive

If not, something must be wrong with its food. If the mother's milk doesn't nourish it, she needs SCOTT'S EMULSION. It supplies the elements of fat required for the baby. If baby is not nourished by its artificial food, then it requires

Scott's Emulsion

Half a teaspoonful three or four times a day in its bottle will have the desired effect. It seems to have a magical effect upon babies and children. A fifty-cent bottle will prove the truth of our statements.

Should be taken in summer as well as winter.

Governor

Theodore Roosevelt

Was elected Governor of New York, first by reason of his military achievements, and secondly on account of popular belief in his personal integrity and political soundness.

Every American boy should read the biography of this great American administrator, historian and officer. Nowhere is the life of this representative American citizen more clearly and authoritatively set forth than in the

NEW WERNER

Encyclopaedia

Britannica

It tells how after graduating from Harvard, he studied law, was a member of the U. S. Assembly, resident of the U. S. Civil Service Commission, president of the New York Police Commission, colonel of the Navy, Lieutenant-Colonel and later Colonel of the "Rough Riders," and now Governor of New York.

It characterizes him as a thorough scholar, an indefatigable sportsman, a typical frontiersman and a brave leader.

It mentions the many valuable historical works he published, how he led his men at Las Guadalupe, El Caney, and San Juan Hill.
